

The Cornerstone Cafe in Fernwood is a very inspirational community place. There are so many colourful individuals that all seem to be trying to keep things positive and the people happy. I have found it a wonderful place to sit every morning. I have had many conversations with folks that have stuck it out in Fernwood over the years; it was once not a very safe place to live, but has found ways to combat these issues. It's amazing what I see everyday just sitting for an short time, watching the community wake up. —*Dale Horricks*
